

2004 Gordon Research Conference on Quantum Information Science

Left to Right

Row 1	LUMING DUAN, CHARLES BENNETT, BARRY SANDERS, GUIFRE VIDAL, K. BIRGITTA WHALEY, LORENZA VIOLA, RICHARD JOZSA, ANDRIS AMBAINIS, ANTHONY LEGGETT, SETH LLOYD, SANDU POPESCU
Row 2	MICHELE MOSCA, EDWARD FARHI, ISAAC CHUANG, DANIEL GOTTESMAN, TREY PORTO, SCOTT AARONSON, IGNACIO CIRAC, MIKLOS SANTHA, JOHN PRESKILL, HOWARD WISEMAN, HANS BRIEGEL
Row 3	MICHAEL FREEDMAN, TZU-CHIEH WEI, NEHA DAVE, AUSTIN FOWLER, ALEXANDRE BLAIS, JOSEPH TRAUB, LIEVEN VANDERSYPEN, PATRICE TURCHI, ALFREDO CARO, GERARDO ORTIZ, ROBERT JOYNT
Row 4	YUAN-CHUNG CHENG, EIRIK OVRUM, MASAKI OWARI, AKIMASA MIYAKE, KENJI MISHIMA, VLADIMIR MALINOVSKY, MARK HEILIGMAN, ASHWIN NAYAK, JAE-SEUNG LEE, JAEWAN KIM
Row 5	ANDREI ISTOMIN, GEVORG MURADYAN, JON MAGNE LEINAAS, JAN IVAR KORSBAKKEN, HOWARD BRANDT, GIULIO CHIRIBELLA, PAOLO PERINOTTI, DANIEL LIDAR, CHRISTOPHER ALTMAN, JIN WOO JUN, SANGCHUL OH
Row 6	CAROLINA MOURA ALVES, JUN ZHANG, VIATCHESLAV DOBROVITSKI, SANJIV SHRESTA, ALEXEI GOUN, TRAVIS BEALS, RICHARD TAN, FRANCESCO BUSCEMI, SUSAN COPPERSMITH, WENLI GUO, CHANGXUE DENG, JIRI VALA
Row 7	SLOBODAN SIMIC, RAINER BLATT, JENNIFER DODD, ILYA GRIGORENKO, NELI SHENVI, JULIA KEMPE, ARVIND, NRI BAR-GILL, BARAK DAYAN, SAMUEL LOMONACO, CHARLENE AHN, TMIOOTHY HAVEL, STEPHEN BULOCK
Row 8	NICOLAS GISIN, MOHAN SAROVAR, SABRINA LESLIE, JOSHUA VON KORFF, MARIANNA SAFRONOVA, THOMAS MARLEY, KENNETH BROWN, GUIDO BURKARD, GEZA TOTH, FRANK VERSTRAETE, MICHAEL SIMON, JENNIFER SOKOL, DAVE BACON
Row 9	ARVESHEN TOSHI OSHMIA, THADEUS LAD, RAFI BUDAKAIN, DMITIRUIE STEPANENKO, MOHAMAD HAFEZ, DAVID FATTAL, MARKUS ASPELMEYER, DMTRI KHVESCHENKO

Gordon Research Conferences

QUANTUM INFORMATION SCIENCE

Four Points Sheraton: Harbortown

February 22 - February 27, 2004

CHAIR: K. BIRGITTA WHALEY

Monday, February 23, 2004

Since their founding by chemistry professor Neil E. Gordon in 1931, the **Gordon Research Conferences** (GRC) have become legend. An elite, invitation-only series of conferences, the meetings are designed to advance the state-of-the-art in specialized scientific disciplines. The series is considered to be one of the world's most prestigious scientific gatherings. Speakers are assured of anonymity, and referencing the conferences is prohibited by conference rules, to promote creativity and close interaction, rather than publicity. *The Gordon Conference* is unlike all other conferences. **Gordon Research Conferences** bring together both the leaders and the most creative researchers in the field. Scientists attending the GRC are breaking new ground in cutting-edge areas. It is undeniable that Gordon researchers do the best research, and contribute more to their fields, than any other researchers.

If you are interested in the future of your field, there is probably no other single event that would be more beneficial to attend. Nowhere else will you be able to hear, meet, and discuss detailed information with such a broad range of scientists working to redefine the frontiers of their research. GRC has had a quiet, though profoundly influential, effect on shaping modern science. Key science and technology developments first discussed at these conferences include quantum teleportation, x-ray, electron-beam and ion-beam lithography, novel techniques for material growth and removal on atomic scales, and applications of nanostructures to novel information processing and quantum effect devices.
